PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate (expected 2028) building full-stack and AI-enabled applications with React, Python, FastAPI, and databases. Experience spanning independent product development, Android application testing, and practical cybersecurity learning. AWS Certified AI Practitioner and Cloud Practitioner, Oracle Agentic AI Foundations Associate, and NASSCOM Gen AI Tools Gold certificate holder. Seeking software engineering, backend, or AI application development internships.

EDUCATION

Adamas University, Kolkata Expected August 2028
B.Tech in Computer Science and Engineering (Core)

The Central Modern School, Barasat May 2024
Higher Secondary (Class XII) – Science (PCMB) with Computer Science

TECHNICAL SKILLS

Languages: Python, Java, C++, C, JavaScript, TypeScript, SQL
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: FastAPI, Node.js, Express.js, REST APIs
Databases: PostgreSQL, MongoDB, SQLite, Firebase
AI/ML: LLMs, Generative AI, Ollama, RAG, Pandas, NumPy, Scikit-learn
Tools & Cloud: Git, GitHub, VS Code, Vercel, Linux, AWS
Core CS: DSA, OOP, DBMS, Computer Networks

EXPERIENCE AND TRAINING

Cyber Secured India – Cybersecurity Internship Dates to confirm
Internship experience (official designation and deliverables to verify)

- Cybersecurity internship participation reported; confirm assigned security tools, assessments, projects, and outcomes before adding technical accomplishment claims.

IIT Guwahati – AI/ML Summer School 2026 2026
Summer School Participant, Cohort B (five-week program, as previously reported)

- Participated in structured learning on artificial intelligence, machine learning, and Python-based data analysis and problem-solving.

WordPower – Android Application QA Testing October 2026
Practical Manual Testing Assignment

- Executed 20 structured test cases on WordPower v2.0.0 using Android 16, covering authentication, learning workflows, UI, persistence, and performance.
- Documented defects in OTP validation, revision features, offline behavior, and responsiveness; prepared a screenshot-supported test report and improvement recommendations.

SELECTED PROJECTS

TrailMind AI – AI-Powered Outdoor Companion GitHub
React, TypeScript, Python, FastAPI, PostgreSQL, Ollama, REST APIs, Vercel

- Built an AI-assisted outdoor exploration application featuring personalized missions, adventure tracking, reflections, and memory workflows.
- Structured FastAPI services and REST endpoints with PostgreSQL support and interchangeable local/cloud AI provider configurations.
- Prepared cloud deployment configuration, environment-variable templates, and integration documentation for the frontend and backend.

PitchCraft AI – AI Business Pitch Generator GitHub | Demo

Generative AI, LLM-assisted workflows, responsive web application, Vercel

- Developed a browser-based tool for turning business ideas into structured pitch content for entrepreneurs and freelancers.
- Designed interactive pitch-generation workflows and reusable presentation-oriented content templates; published a live demonstration.

Stationery Store Management System – Inventory and Sales Academic Project

HTML, CSS, JavaScript, SRS, ER diagrams, DFDs, database modeling

- Designed an administrative dashboard and product, inventory, and sales workflows for a stationery retail system.
- Produced software requirements, entity-relationship and data-flow diagrams, and use-case models to document system behavior.

CERTIFICATIONS

- **AWS Certified AI Practitioner (AIF-C01)** – Amazon Web Services, 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services, 2026
- **Agentic AI Certified Foundations Associate** – Oracle University, August 2026
- **Gen AI Tools – Gold (100/100 assessment)** – NASSCOM FutureSkills Prime, August 2026
- Introduction to Generative AI and Innovating with Google Cloud Artificial Intelligence – Google Cloud Skills Boost
- Introduction to Cybersecurity – Cisco Networking Academy

ADDITIONAL LEARNING AND ACTIVITIES

- Completed virtual job simulations: Tata Group Cybersecurity Analyst, Deloitte Australia Data Analytics, and Accenture North America Project Management (Forage).
- Practiced security labs using TryHackMe, PortSwigger Web Security Academy, and OverTheWire; participated in AI-focused hackathons and coding activities.
